

Address of Thailand's new energy battery stamping plant

Will Thailand's first EV battery production plant boost EV industry?

Under joint efforts, venture expected to give impetus to industry in SE Asia Thailand's first domestic electric vehicle battery pack production plant went into operation on Thursday. The plant, run jointly by Chinese battery cell manufacturer Gotion High-tech and Thai company Nuovo Plus, is expected to give Southeast Asia's EV industry a boost.

How many EV batteries will SVOLT produce in Thailand?

According to the portal CN EV Post, two production lines are planned - one for the production of battery modules and one for battery pack assembly with an annual capacity of 60,000 units. SVOLT will supply the batteries to existing customers such as Great Wall Motor and Hozon, but is also negotiating with potential new customers in Thailand.

Why is PTT launching a giga-level battery factory in Thailand?

He said PTT was introducing new technologies and innovations, including high-quality batteries, to accelerate the creation of an EV and clean energy ecosystem in Thailand. "The giga-level battery factory will help Thailand transition from importer to manufacturer and exporter of lithium-ion batteries," he said.

Will NV Gotion help Thailand become an EV manufacturer?

"The giga-level battery factory will help Thailand transition from importer to manufacturer and exporter of lithium-ion batteries," he said. Auttapol said NV Gotion would be another engine for Thailand's ambition to become an EV manufacturing leader in the ASEAN region.

Are EVs a new start in Thailand?

"This is a new start in Thailand with great vitality, as a revolution is now coming strongly with the energy storage of solar and wind power as a key role," he said, adding that the EV market in Thailand has great potential, as EVs currently constitute only a tiny portion of the country's total vehicle number.

Will Thailand become a global hub for electric vehicle production?

The new plant, located at Siam Eastern Industrial Park II in Rayong, is a significant step in the country's ambition to become a global hub for electric vehicle production, said the president of Thailand's oil and gas giant.
