

What is the global lithium-ion battery supply chain ranking?

Now in its fourth edition, the Global Lithium-Ion Battery Supply Chain Ranking considers 46 individual metrics to track the supply chain potential across five equally weighted categories: raw materials, battery manufacturing, downstream demand, ESG considerations, and 'industry, infrastructure and innovation'.

What is the global lithium-ion battery supply chain database 2024?

InfoLink sees global energy-storage installation increase by 50% to 165 GWh and energy-storage cell shipments by 35% to 266 GWh in 2024. Global Lithium-Ion Battery Supply Chain Database 2024 Database contains the global lithium-ion battery market supply and demand analysis, focusing on the cell segment in the ESS sector.

How much lithium ion battery shipments in 2024?

According to InfoLink's global lithium-ion battery supply chain database, energy storage cell shipment reached 114.5 GWh in the first half of 2024, of which 101.9 GWh going to utility-scale (including C&I) sector and 12.6 GWh going to small-scale (including communication) sector.

What is the lithium-ion battery market database?

Database contains the global lithium-ion battery market supply and demand analysis, focusing on the cell segment in the ESS sector. We compile detailed data on various businesses' capacity, production, and shipments, as well as segmenting the market applications such as FTM, BTM-C&I, and BTM-Residential.

Will China dominate the global lithium-ion battery supply chain in 2022?

Bali, November 12, 2022 - China continues to dominate BloombergNEF's (BNEF) global lithium-ion battery supply chain ranking, for the third time in a row, for both 2022 and its projection for 2027, thanks to continued support for the electric vehicle demand and raw materials investments.

Can Canada build a sustainable lithium-ion battery supply chain?

London, February 5, 2024 - Canada has overtaken China for the top spot in BloombergNEF's (BNEF's) Global Lithium-Ion Battery Supply Chain Ranking, an annual assessment that rates 30 countries on their potential to build a secure, reliable, and sustainable lithium-ion battery supply chain.

London, February 5, 2024 - Canada has overtaken China for the top spot in BloombergNEF's (BNEF's) Global Lithium-Ion Battery Supply Chain Ranking, an annual assessment that rates 30 countries on their potential to build a secure, ...

According to InfoLink's global lithium-ion battery supply chain database, energy storage cell shipment reached 114.5 GWh in the first half of 2024, of which 101.9 GWh going ...

6 ???· New York, December 10, 2024 - Battery prices saw their biggest annual drop since 2017. Lithium-ion battery pack prices dropped 20% from 2023 to a record low of \$115 per ...

In the next 2-3 years, the energy storage battery industry dominated by lithium batteries will show explosive growth, and market competition will further intensify. This shows that the energy ...

This is the third edition of BloombergNEF's Global Lithium-Ion Battery Supply Chain Ranking. BloombergNEF ranks 30 leading countries across the lithium-ion battery supply chain based ...

London, February 5, 2024 - Canada has overtaken China for the top spot in BloombergNEF's (BNEF's) Global Lithium-Ion Battery Supply Chain Ranking, an annual assessment that rates ...

The world shipped 196.7 GWh of energy-storage cells in 2023, with utility-scale and C& I energy storage projects accounting for 168.5 GWh and 28.1 GWh, respectively, ...

In the report, BNEF ranks 30 leading countries across the lithium-ion battery supply chain based on 45 metrics across five key themes: availability and supply of key raw materials; manufacturing of battery cells and ...

Bali, November 12, 2022 - China continues to dominate BloombergNEF's (BNEF) global lithium-ion battery supply chain ranking, for the third time in a row, for both 2022 and its projection for 2027, thanks to continued support for the electric ...

Demand for EV batteries reached more than 750 GWh in 2023, up 40% relative to 2022, though the annual growth rate slowed slightly compared to in 2021-2022. Electric cars account for ...

In this provisional report on 2023, demand for lithium-ion batteries in the light vehicle automotive sector grew around 40% last year, up to 712 GWh from 507 GWh in 2022. ...

China's lithium battery shipments totaled 786 gigawatt hours (GWh) in the first three quarters of 2024, up from 605 GWh in the same period in 2023, according to the latest data from Shenzhen-based research institute ...

In its Global Lithium-Ion Battery Supply Chain Database, InfoLink expects the annual energy-storage cell shipments in 2023 to reach 203 GWh, with 175 GWh for utility ...

Strategic research provider BloombergNEF has released the Global Lithium-Ion Battery Supply Chain Ranking, an annual assessment that rates 30 countries on their potential ...

According to InfoLink's global lithium-ion battery supply chain database, energy storage cell shipments reached 202.3 GWh in the first three quarters of 2024, up 42.8% YoY. The energy storage cell market experienced ...

The annual ranking rates 30 countries on their potential to build a secure, reliable, and sustainable lithium-ion battery supply chain. China's performance was marred by a poorer ...

Source: InfoLink's Global Lithium-ion Battery Supply Chain & Trend Report *The unit of InfoLink's calculation is three-digit MWh. *The information here is subject to ...

Canada has surpassed China to secure the top position in BloombergNEF's (BNEF) annual Global Lithium-Ion Battery Supply Chain Ranking.. The assessment, now in its ...

In the report, BNEF ranks 30 leading countries across the lithium-ion battery supply chain based on 45 metrics across five key themes: availability and supply of key raw ...

For the first time, China is not the top market in BloombergNEF's ranking of countries' potential to build a secure, reliable and sustainable lithium-ion battery supply chain. It has been dethroned by Canada, whose continued growth ...
