Why did Johnson Matthey start their battery systems division?

They started their Battery Systems division to capitalise on the increasing demand for electric vehicles and energy storage solutions. Table 1: Johnson Matthey Battery Systems Basic Information Johnson Matthey Battery Systems is particularly recognised for their high-energy battery packs.

Should you buy a ReliOn battery or a battle born battery?

RELiON batteries,however,boast a longer cycle life,offering up to 7000 cycles at a depth of discharge of 50%. This means that,all else being equal,a RELiON battery could last longer than a Battle Born battery. Both companies offer comprehensive support to their customers,but user feedback suggests a slight edge for RELiON in this area.

Who uses Johnson Matthey lithium-ion batteries?

Johnson Matthey has supplied lithium-ion batteries to several leading electric vehicle manufacturers. For instance,they were chosen by Modec,a UK-based commercial electric vehicle manufacturer,as the battery supplier for their new EV. Modec reported significant improvements in vehicle range and overall performance after the switch. 2.

What makes a good battery?

A battery is a sterling example of compromise. No one design works best in every application. For example, a flooded (descriptive name for a common wet cell battery) starting battery has many thin, low-density, active material plates with great surface area for providing the hundreds of amps needed to start an engine.
