

## Battery companies terminate contracts in large numbers

Why did BMW cancel a contract with Northvolt?

The termination aligns with mutual interests in developing next-generation battery cells, aiming for a sustainable European ecosystem. BMW, a German premium carmaker, announced the cancellation of a significant order with Northvolt, a Swedish company, concerning a 2 billion euros (\$2.15 billion) contract for battery cells for its electric vehicles.

Why are battery companies struggling?

Call it new industry growing pains: Companies are struggling to bridge the gap between early-stage products and the high-volume production that will be needed down the line, reports The Information. Battery makers also are looking to save cash as costs surge and investors move their funding to less risky prospects.

Did EV battery startup one cut its workforce?

Earlier this week, we covered Michigan-based EV battery startup ONE, Our Next Energy, cutting its workforce by 25% as part of a "revised business plan," according to the company. The company, headquartered in Novi, a suburb of Detroit, announced that it has cut 128 salaried and hourly workers from its staff of roughly 500 people.

Are EV battery makers saving money?

Battery makers also are looking to save cash as costs surge and investors move their funding to less risky prospects. Earlier this week, we covered Michigan-based EV battery startup ONE, Our Next Energy, cutting its workforce by 25% as part of a "revised business plan," according to the company.

How much does a battery recycling facility cost?

Similarly, the battery recycling firm Li-Cycle recently laid off workers and paused construction at a facility in Rochester, New York. The company originally expected the facility to cost about \$550 million but now says it could cost \$1 billion.

Should you invest in a battery company?

Jill Pestana, who leads the battery practice in North America for the consulting firm Accenture, adds that it's hard for battery companies to navigate the period between receiving a major investment and achieving profitability because it can be long, and many investors are hoping for a quick return.
