

What is battery alarm & how does it work?

Battery Alarm apart from giving you all the notification features also displays some vital stats about the battery. You can view the remaining percentage, total capacity, remaining capacity, remaining time, etc. The app lets you set levels for full battery and low battery notifications.

What if a battery management app is too bloated?

If a full-scale battery management app is too bloated for you, try the Battery Charge Notifier. It's a simple app that just sends you notification alerts. You can configure it to send one-time or repeating alerts. To set up the Battery Charge Notifier, install it from the Play Store and launch it. Tap the gear icon to open settings.

Where can I download battery alarm app?

Download it here. This is a free application which can be downloaded from Microsoft Store. Battery Alarm apart from giving you all the notification features also displays some vital stats about the battery. You can view the remaining percentage, total capacity, remaining capacity, remaining time, etc.

How do I set a low battery alert?

While low battery alert can be customised by the below mentioned steps you cannot set a notification for battery reaching 80% through windows. You will need a third party or an OEM (is your device OEM provides it) for that. Press enter and in the control panel click on the view by dropdown on top right and change it to large icons.

How do I create a battery alarm?

Dedicated battery apps make it super easy to create custom alerts. Apps like Battery Guru and Battery Charge Notifier are solid options. They're both free and without ads. To create a battery alarm, search for "Battery Guru" on the Google Play Store. Tap "Install" and open the app once done. Battery Guru will walk you through the first setup.

How do I check if my smart home battery is working?

It works by sending a POST webhook to your smart home service about the battery status of your device. You can use this information to automatically turn on or off the wall socket. Download it here. This is a free application which can be downloaded from Microsoft Store.
