

What does an electric car battery warranty cover?

An electric car battery warranty will normally cover the replacement or repair of the battery if it experiences issues during the warranty period. It will cover things like manufacturing defects, workmanship issues, and capacity degradation beyond a specified threshold.

Why is an electric car battery warranty important?

Let's delve into why having an electric car battery warranty is so important and how it can help you get the most out of your EV. How long do electric car batteries last? EV batteries are manufactured to outlast the cars they power, and most electric car batteries generally have a lifespan of upwards of 10 years (or 100,000 miles).

Do EV batteries need a car warranty?

If the battery isn't functioning at its full capacity, its range will start to decrease, requiring the driver to recharge it more frequently. Without a car warranty, EV batteries are very expensive to repair or replace, so having battery coverage for long enough to cover most of a battery's lifespan is imperative.

How long does a car battery last under warranty?

For example, if a battery is replaced under warranty at the 5-year mark of an 8-year warranty, the replacement battery should be covered for the remaining 3 years or until the original warranty's mileage limit is reached, whichever comes first.

What is a battery capacity warranty?

As batteries charge more and more their capacity to hold a charge gradually decreases. Capacity warranties set a threshold, usually in terms of a percentage of the original capacity (e.g., 70% or 80%), and guarantee that the battery will retain at least that much capacity over a specified time and mileage.

Are batteries covered by a warranty?

Batteries used in a commercial or professional application, such as taxis, driving instructors, emergency services, works vehicles, etc., are not covered by the full term of the warranty but instead come with a 6 month warranty. How does the guarantee work? The guarantee covers any manufacturing defects which arise within the guarantee period.
