

What is a USB power bank?

Most people can find use for a USB power bank (also called an external battery pack, backup battery, or portable charger) to keep phones and other devices charged while on the go. Rather than tracking down a wall outlet, owning a USB power bank allows you to enjoy a conveniently portable (albeit limited) power supply.

Should you buy a portable battery or power bank?

Watching your phone or tablet steadily run out of power when you're nowhere near an outlet is stressful. But there's an easy solution: a portable battery or power bank. These are available in many sizes and capacities, and can include lots of handy features like fast charging and multiple ports.

Do portable chargers & power banks work if you're out of juice?

These portable chargers and power banks give you the most boost when you're out of juice. Our team tests, rates, and reviews more than 1,500 products each year to help you make better buying decisions and get more from technology. Watching your phone or tablet steadily run out of power when you're nowhere near an outlet is stressful.

Which portable batteries keep your phone going longer?

Other portable batteries on this list can keep your phone going longer, but none are as convenient. With a 10,000mAh battery, dual 20W USB-C PD outputs for charging two devices at once, and five color options, the Nimble Champ offers convenience and portability in an attractive package.

Can a Wai pps-400 be used as a backup power supply?

DC 12V and USB 5V output, LED light for night time use, UPS function The WAI PPS-400 can be used as both a UPS (Uninterruptible Power Supply) and an outdoor emergency backup power supply. Its lithium battery has a total capacity of 426.24WH/115200mAh, providing a steady stream of power for the load

How much battery does a power bank hold?

We sought out power banks weighing 8 ounces (half a pound) or less, making them easy to carry around in a wallet, pocket, or bag. We preferred power banks rated for at least 2,000 mAh and up to 10,000 mAh capacity, which tells you roughly how much battery life they hold.
