

Do you offer a free diagnostic battery check?

The colder winter months can seriously compromise the effectiveness of your car battery - that's why we offer a free diagnostic battery check at all of our centres. Simply find your local centre and book your Free Battery Check now.

How long does a car battery test take?

We'll check the condition of your car battery -- including your battery's starting and charging systems -- using the latest Bosch testing equipment. The service only takes around 5 minutes and no appointment is necessary. To book, please enter your vehicle registration below.

Where can I get a free battery check?

Simply find your local centre and book your Free Battery Check now. Your battery is one of the most important components of your car, and it is often during cold spells that you can first experience problems. This can be at the very least inconvenient, or, if you find yourself stranded in extreme conditions, potentially dangerous.

How long does a battery health check take?

The service only takes around 5 minutes and no appointment is necessary. To book, please enter your vehicle registration below. Please note: we are currently unable to complete battery health checks on hybrid/electric vehicles.

What is a battery health check?

Using specialist equipment to measure the voltage level, expert technicians like ours can examine the battery's ability to retain charge. As well as this, battery health checks involve a visual inspection of the battery to check for any corrosion or external damage that may be threatening battery performance.

What is a free battery health check?

A free battery health check helps identify any underlying faults with a battery before it becomes an issue. This pro-active test will give you peace of mind that the battery is in good working order. Come and visit us for your Free Battery Check and select a booking time online that suits you. Why do you get issues with your battery?
