

Croatia Energy Storage Battery Tender Project

How much ie-energy aid will Croatia get?

The European Commission has approved EUR19.8 million(US\$20.1 million) in state aid from the government of Croatia to energy storage operator IE-Energy for a series of grid-connected projects. The aid will be a direct grant to IE-Energy and will cover approximately 30% of capital expenditures for a series of grid-scale battery energy storage systems.

Did Croatia get the green light for IE-energy's massive energy storage project?

Croatia got the green light from Brusselsfor a EUR 19.8 million grant to IE-Energy for a massive energy storage project.

Will Croatia build Europe's largest energy storage project?

Croatia is preparing to buildEastern Europe's largest energy storage project. IE Energy has secured EUR19.8 million (\$20.9 million) to develop a 50 MW storage system,potentially extendable to 110 MW by 2024.

Is Croatia ready for solar energy storage?

"There is immense scope for energy storage in Croatia,predominantly for battery storage." GlobalData says that Croatia is now on target to meet its 36.4% renewable energy target by 2030. However,its recent investment in energy storage has not been accompanied by rapid solar PV development.

Will ie-energy build the biggest battery system in southeastern Europe?

IE-Energy is planning to build a battery system of 50 MW,which means it would be the biggest in Southeastern Europe. The European Commission has approved,under the European Union's aid rules,a EUR 19.8 million Croatian aid measure in favor of energy storage operator IE-Energy.

Will ie-energy be the biggest energy storage project in southeastern Europe?

Croatia got the green light from Brussels to give a EUR 19.8 million grant to a domestic startup for a massive energy storage project. IE-Energy is planning to build a battery system of 50 MW,which means it would be the biggest in Southeastern Europe.
