

Ecuador's Ministry of Energy and Non-Renewable Natural Resources has shortlisted five bidders in a tender for a 14.8 MW/40.9 MWh solar+storage facility launched in ...

The project will have a generating capacity of 14.8 MW for the solar photovoltaic and a 40.9 MWh battery energy storage system. The transmission infrastructure will supply power to the islands ...

The majority of those 16 projects are four-hour duration battery energy storage system (BESS) projects, with one three-hour project in Indiana and a two-hour project in ...

On July 11 and 12, we presented the results of our energy storage systems project for Ecuador, contracted by the World Bank. The event on April 11 saw the attendance of several notable ...

The solar-plus-storage facility will be built by Ecuadorian developer Gransolar and French renewable energy company Total Eren on Santa Cruz Island in the Galapagos ...

The two projects (pictured) are sited at a Southern California Edison substation in Santa Ana, California. Image: Convergent Energy + Power. Convergent Energy + Power has celebrated the successful commissioning ...

Ireland's national planning body An Bord Pleanála has approved a EUR140 million (US\$135.7 million) proposed battery storage facility set to be developed by Strategic Power ...

The project will have a generating capacity of 14.8 MW for the solar photovoltaic and a 40.9 ...

Image: Harmony Energy. Alex Thornton, operations director at Harmony Energy, gives us a deep dive into Pillswood, the biggest battery storage project in Europe, including ...

Financial close has been reached for a 25MW / 100MWh battery energy storage system (BESS) project in Belgium which has also been successful in a grid capacity auction ...

It is located at Poolbeg Energy Hub, where ESB - around 95% owned by the Irish state with the remaining stake held by its employees - is planning to deploy a ...

On July 11 and 12, we presented the results of our energy storage systems project for ...

The solar-plus-storage facility will be built by Ecuadorian developer Gransolar and French renewable energy company Total Eren on Santa Cruz Island in the Galapagos National Park.

In addition to the Conolophus photovoltaic (PV) plant, the winner will also build a 40.9-MWh lithium-ion battery energy storage system. Together, the projects require a private ...

Recent developments reported by Energy-Storage.news include a 2.1GWh, three-project portfolio of BESS that will be owned by utility Southern California Edison and a 226MWh build-out of vanadium flow battery ...

Battery energy storage system (BESS) deployment is continuing at pace, meaning high safety standards and effective ope...

The tender will award a 25-year concession to build and operate a 14.8-MWp solar photovoltaic (PV) power plant and a battery storage system of 40.9 MWh on Baltra Island ...

In addition to the Conolophus photovoltaic (PV) plant, the winner will also ...

In December 2020, the "El Aromo" solar energy project was approved in coastal Manabá province, Ecuador. Operated by the Spanish company Solarpack, the project is ...

The Grid-scale/Utility Scale Battery Energy Storage Systems (BESS) industry in Ecuador is currently experiencing a surge in construction of new projects. This is due to the increasing ...
