

What is Fiji Airways 'prohibition' on small lithium battery-powered vehicles?

Fiji Airways has with immediate effect implemented a total Prohibition on Carriage of Small Lithium Battery-Powered Vehicles. Some examples of these small lithium battery-powered vehicles are: airwheel, solowheel, hoverboard, mini-segway, balance wheel.

What are the requirements for a lithium ion battery?

For lithium metal batteries the lithium metal content must not exceed 2 g and for lithium ion batteries the Watt-hour rating must not exceed 100Wh. Devices in checked baggage must be completely switched off and must be protected from damage. Each person is limited to a maximum of 15 PED. *The operator may approve the carriage of more than 15 PED.

Does Fiji Airways carry out physical & manual searches?

Please be aware physical and manual searches may be carried out at all airports and all baggage, boxes and cargo are opened for physical inspections. These checks are carried out by the screening authority or Fiji Airways Security contractors.

What items are not allowed in Fiji Airways checked luggage?

These checks are carried out by the screening authority or Fiji Airways Security contractors. Items such as knives of any size, metallic objects, spare parts, umbrella, curves with sharp edges, that has the potential to be used as a weapon in the cabin are not allowed in your carry on luggage. These items must be placed in your checked luggage.

With battery and memory card installed it weighs 521g - a 43g increase over the old camera, but still lighter than any similarly-sized CSC with a lens fitted. ... Fujifilm X100VI ...
