

How long does a laptop battery last?

The Microsoft Surface Laptop 7 is another Snapdragon-equipped machine with spectacular battery life: 20 hours, to be exact. This result is especially impressive because the battery size is only 54 watt-hours, which is small compared to other laptops of its class (like the 84 watt-hour battery in the Dell Inspiron 16 2-in-1).

Which laptop has the best battery life?

The Windows laptops with the best battery life are currently Snapdragon laptops, which means they're powered by Qualcomm's Arm chips and thus have some compatibility issues with select software. The top MacBooks all run on Apple silicon now and have good software support for everything except games, which are more hit-and-miss on Apple's laptops.

Is a longer battery life better than a long runtime?

Everyone can agree that longer battery life in a laptop is better, but many parts of a laptop stand in contrast to a long runtime. High-powered CPUs and graphics, for example, drain the battery faster than more efficient and less powerful components.

Which Asus Laptop has the longest battery life?

The Asus TUF Gaming A14 features the longest lasting battery life we've tested in years. It not only lasts a long time but it's also affordable and a strong performer. Rami has been swimming in laptops for most of his adult life, which is wild to think about, but excellent for you, those of which that need a new rig in their life.

How important is battery life when buying a laptop?

Battery life is one of the most important aspects to consider when purchasing a laptop; it can be annoying to continually look for a power outlet to charge your device, especially when you're out and about. Thankfully, many laptops have fantastic battery life as CPUs, SoCs, and other components become increasingly more power-efficient.

How long does a phone battery last?

This influx of long-lasting phones is making it tougher than ever to land a spot in this best phone battery life guide. A phone would need to hold out for more than 14 hours on the battery test we run on each phone just to have a chance of making the grade. Just a couple years back, 12 hours would have been good enough for a spot on this list.

We are putting the iPhone 16 Pro Max as our top pick here for being not only one of the best flagships, but also one of the phones to offer the longer battery life nowadays.
