

How much does a 5kw solar panel cost?

The price of 5kW solar panels can be £7,500 - £8,500, while the appropriately sized battery for the panels (11 to 12kWh) will cost £9,000 to £10,000.

How much does a 5 kWp solar system cost?

In some cases, a 5 kWp solar PV array will be sufficient to meet those energy demands. A 5 kWp solar system will typically require around 15 solar panels at 350W each and cost between £8,000 to £12,000.

*The figures in this table are calculated based on 350W solar panels and the national average household energy consumption (2022).

How much do solar panels cost?

Solar panels usually make up about a third of the total cost of the project. So if you live in a 3-bedroom house, and pay £7,100 for your system and installation, you can expect the cost of your solar panels specifically to be around £2,400. However, the actual price depends on the efficiency, power and brand of your solar panels.

Is a 5kw solar panel system safe for a 4-bedroom property?

A 5kW solar panel system is usually a safe choice for a four-bedroom property, but this depends on factors like your present and future energy usage and the solar battery you pick.
