

How do I get a free solar panel quote?

Most reputable solar installers offer free solar panel quotes as part of their service. This will give you a rough estimate of your home's solar potential, system size, and the costs and savings. But make sure there are no strings attached to their quote.

Why should I compare solar quotes?

Comparing solar quotes can not only save money by choosing the best deal for you but also reduce hours of your time spent searching for trusted installers. Take the easy route with GreenMatch, as we can connect you with up to 4 solar panel installers from our professional network. Get started by clicking on the button below:

What should a comprehensive solar panel quote include?

A comprehensive solar panel quote should include system details, costs, energy output, and warranties. Look out for unrealistic promises, hidden fees, lack of transparency, questionable credentials, and unproven technologies. Our service is free and non-binding, allowing you to connect with up to 4 vetted solar panel installers near you in no time.

Why should you get a free solar panel quote?

A free quote lets you compare the options and costs between different providers with no financial commitment, making it a crucial step in your decision-making process. Choosing a good solar panel installer involves researching their credentials, experience, and customer reviews.

How do solar panels work?

Solar panels usually connect to your house's electricity supply through the roof, into the top floor of your home. Your installer will run wires from the solar panels to an inverter, which usually sits in the loft - though feel free to ask for a different position if you'd prefer.

Do solar panels have a kilowatt-hour estimate?

When providing quotes, installers will also produce estimates for a solar panel system's annual energy production in kilowatt-hours (kWh) and the corresponding financial savings. But to make sure these estimates are credible, they need to be validated by an industry body such as the Energy Performance Validation Scheme (EPVS).
