

What is a capacitor market?

The capacitor market is a semi-consolidated market. The market is competitive with the presence of various large-scale manufacturers in the market across the globe. The capacitor market has long-standing established players who have made significant investments.

What is the future of the capacitor market?

Publisher: Lucintel Publication date: Get it in 2 weeks by ordering today. The future of the capacitor market looks promising with opportunities in the computer, telecom, consumer electronics, automotive, and industrial sectors. The global capacitor market is forecast to reach \$31.2 billion by 2027 with a CAGR of 5.9% from 2021 to 2027.

What is the expected growth rate of the capacitor market?

Answer: The capacitor market is expected to grow at a CAGR of 5.9% from 2021 to 2027. Q3. What are the major drivers influencing the growth of the capacitor market?

Why is North America electric capacitor market growing?

North America electric capacitor market has witnessed an inclination in the product demand due to the ongoing modernization of electrical transmission & distribution systems. The increasing adoption of smart grids to encourage energy conservation and integration of renewable energy will stimulate the product deployment.

Why is China a major market for capacitors in Asia Pacific?

China is a prominent market in Asia Pacific for capacitor due to the availability of raw materials and strong presence of small-scale capacitor manufacturing companies in the country. Furthermore, increase in usage of capacitor for the automotive and power and utility sectors drives capacitor market growth.

What are the key players in the capacitor market?

Some of the key players from the capacitor market such as KYOCERA Corporation provides ceramic capacitor that has a wide voltage range and low series resistance (ESR). These specifications are well-suited for automotive applications. Thus, rise in sales of electric vehicles is likely to have a positive impact on the market.

The Capacitor Market is expected to reach USD 25.21 billion in 2024 and grow at a CAGR of 5.90% to reach USD 33.57 billion by 2029. TDK Corporation, Murata Manufacturing Co., Ltd., ...

capacitor market will be valued at \$28.9 billion by 2025, with an expected CAGR of approx. 5.5% between 2020 and 2025. Lucintel identifies five trends set to influence the ...

This market report covers trends, opportunities and forecast in the global capacitor market to 2030 by end use industry (telecom, computers, consumer electronics, automotive, industrial, and ...

Capacitor Market size was valued at USD 25.49 Billion in 2024 and is projected to reach USD 40.66 Billion by 2031, growing at a CAGR of 6.63% from 2024 to 2031. A capacitor is an ...

Statistics for the 2024 Capacitor market share, size and revenue growth rate, created by Mordor Intelligence(TM) Industry Reports. Capacitor analysis includes a market forecast outlook to for 2024 to 2029 and historical overview.

As the demand for capacitors is fueled by significant product development in the IoT, consumer electronics, and electric vehicles (EV), any new advancements in these ...

Statistics for the 2024 Capacitor market share, size and revenue growth rate, created by Mordor Intelligence(TM) Industry Reports. Capacitor analysis includes a market forecast outlook to for ...

The global market for Capacitor was estimated to be worth US\$ 23990 million in 2023 and is forecast to a readjusted size of US\$ 29600 million by 2030 with a CAGR of 3.1% ...

The global capacitors market is expected to grow at a CAGR of 4.5% during the forecast period, from 2021 to 2030. The growth in this market can be attributed to the increasing demand for ...

Capacitor Market size was valued at USD 25.49 Billion in 2024 and is projected to reach USD 40.66 Billion by 2031, growing at a CAGR of 6.63% from 2024 to 2031. A capacitor is an essential electronic component that stores and ...

4 comprehensive market analysis studies and industry reports on the Capacitors sector, offering an industry overview with historical data since 2019 and forecasts up to 2029. This includes a ...

The global capacitor industry was valued at US\$ 31.79 Bn in 2021; It is estimated to rise at a CAGR of 6.4% from 2022 to 2031; The global market is expected to reach US\$ 58.67 Bn by the end of 2031; Analysts' Viewpoint on Market Scenario

Capacitor Industry Report, 2019-2025 Aug. 2019. METHODOLOGY . Both primary and secondary research methodologies were used. in preparing this study. Initially, a comprehensive and ...

Previously, 5G support was confined to only flagship mobiles; now, mid-level smartphones also support 5G to introduce cheaper chipsets in the market. Such initiatives are ...

The capacitor market is estimated to be at USD 34,798.01 Mn in 2024 and is anticipated to reach USD 46,386.05 Mn in 2029. The capacitor market is registering a CAGR ...

The global capacitor industry was valued at US\$ 31.79 Bn in 2021; It is estimated to rise at a CAGR of 6.4% from 2022 to 2031; The global market is expected to reach US\$ 58.67 Bn by ...

Capacitors are physical objects typically composed of two electrical conductors that store energy in the electric field between the conductors. Capacitors are characterized by how much charge and therefore how much electrical energy ...

The expansion of the renewable energy sector, including solar and wind power, requires capacitors for energy storage and power conditioning. Electrolytic capacitors are ...

The electric capacitor industry across the country has experienced a surge in demand fueled by the ongoing modernization of electrical transmission and distribution systems. The rising ...
