

How much does a well-known battery cost

How much does a car battery cost in the UK?

Motorists can pay anywhere from £50 to £400 or more to replace a car battery in the UK. We surveyed main dealers, independent workshops and high street chains to find car battery prices to help you spot a good deal.

Why are car batteries so expensive?

Many car owners are surprised by the high cost of car batteries. Several factors contribute to their high cost. One major factor is the quality of materials used in manufacturing these batteries. High-quality materials ensure that they have a longer lifespan and are more reliable than cheaper alternatives.

Do I need to buy a car battery?

A trained technician will assess the health of your car's battery, and advise on whether it's good to go or in need of replacement. There's no obligation to buy either. You can find our entire range of car batteries and car battery charging accessories online.

What type of battery should I buy?

The type of battery you use has a significant impact on the price. Lead-acid batteries are the most common and cheapest, while absorbent glass mat (AGM) and lithium-ion batteries offer more performance but cost more. You can learn more about the different types of battery [here](#).
