

How much does the new energy rear battery cost

How much does a car battery replacement cost in the UK?

The average cost of a replacement car battery in the UK is between £100 to £400, depending on various factors like size or type, brand, quality and warranty. We'll dive into the costs for each car make and how other factors can impact your bill below.

How much would an electric car battery cost per kilowatt hour?

The analysts concluded that this would be down to declining prices of EV raw materials, such as lithium, nickel, and cobalt. This would mean a battery would cost \$99 per kilowatt hour, drastically reducing an electric car battery replacement cost. [How Can I Keep My Battery Replacement Cost Down Now?](#)

How much does an EV battery cost?

The cost of an EV battery will depend on whether you repair or replace. According to Bloomberg New Economic Finance (BNEF), the current cost of a battery is around \$135 (£118) per kilowatt-hour. Based on that calculation, the Kia EV6's 77.4kWh battery is an eye-watering \$10,449 (£9,136) to replace.

How much does an electric car battery cost in 2023?

According to Statista, the average cost of a lithium-ion electric car battery in 2023 was \$139 per kWh. This works out as £109.25 per kWh in the UK. While it is still expensive, it is much lower than in 2013 when the cost per kWh was \$780 (£613.04). [How Much Does an EV Battery Cost?](#)

How much does a new Tesla Model S battery cost?

This would mean that a new Tesla Model S battery would cost around £8,870 without factoring in removal and replacement of the old battery. While this is worlds away from the cost of a petrol or diesel car battery, EV batteries are in fact becoming more affordable.

Should I pay for a new car battery?

Yes, when you pay for a new car battery, you'll also need to pay for the mechanic's skills and time. However, labour costs are usually included in the overall garage quote. So, you shouldn't be hit with an extra fee after the job. If in doubt, check with your mechanic first.
