How to fix battery charging current

Why is my laptop battery not charging?

If your laptop shows a charger being plugged in,but the battery percentage is not increasing,it could just be a case of software malfunction,or the battery may be too old and charging too slowly. It is also possible that the charger is faulty,and you may need to replace it.

How do I know if my laptop battery is charging?

To verify this, connect a different charger that is suitable for your laptop and see if your battery charges with it.* 1. If you don't have or can't borrow another charger, visit a computer repair shop and ask them to test with their own charger to see if the battery is charging. Then, if you find that the charger is the problem, buy a new charger.

How do I Fix my laptop battery not charging?
