

## How to install batteries in green onion sticks

How do you stack a battery?

So with coin cell batteries, insert the first battery with the positive side face-up. Then, stack the second battery with the negative side facing down (and positive side facing up) so the negative side rests on top of the first battery's positive side. I have a very small cylindrical flashlight that takes 4 button batteries, stacked.

How do I replace a battery operated device?

Use new batteries that are meant for your battery operated device. Remove the batteries from their packaging and discard any plastic wrapping. Install the new batteries into your device. Match up the positive (+) and negative (-) markings on the batteries in the device to make sure they are installed correctly.

How do I insert a battery?

When you insert batteries, just match the negative end to the spring and the positive end to the flat side. In this case, you'll place the negative, flat sides of the batteries against the springs. Include your email address to get a message when this question is answered.

How do you put a new battery in a laptop?

If you're ready to pop in those fresh batteries, read on! For AA, AAA, C, and D batteries, slide the flat, negative end of the battery against the spring onto the device. Then, push the raised, positive end into the flat side of the compartment. For a 9-Volt battery, hold it at a 30° angle to line it up with the connector snaps.

How do you store a battery?

Instead, store batteries in their original packaging or a plastic container at room temperature. Always double-check that your batteries are installed correctly. Improper battery installation can lead to the battery leaking or rupturing, which can result in dangerous exposure to corrosive chemicals.

Where does the positive end of a battery go?

See image below...On most battery operated devices that use round cylindrical type batteries such as double AA, triple AAA, C, and D batteries, the negative end (flat end) of the battery goes on the spring and the positive end (side with a nub) goes to the positive end.
