

How do I dispose of a battery?

Call your waste collection service. The company that collects garbage or recycling from your home or workplace may offer hazardous waste disposal services. Even if they cannot collect your batteries, they may have a disposal site where you can drop off your batteries and other hazardous waste materials.

Can you recycle a battery?

Reduce fire risk and save precious resources by recycling your batteries. Common household batteries include lithium-ion button batteries from watches, hearing aids, etc., as well as standard barrel-type batteries (AAs, AAAs and so on). You must recycle these household batteries at dedicated battery collection points.

What happens if you throw away used batteries?

Avoid throwing away used batteries alongside your regular household waste. When batteries end up at landfill sites, the chemicals and hazardous materials from the battery contaminate the landfill site, contributing to air, water, and soil pollution. Batteries contain valuable, raw materials that can be recycled and reused to create new products.

Can you dispose of car batteries in a rubbish bin?

By law you mustn't dispose of car batteries in a rubbish bin. In the UK you can recycle car batteries at designated collection points. These include many household waste recycling centres, garages and scrap yards. Or, if a specialist is replacing your car battery, they might be able to dispose of the old one safely for you.

What happens if you put a battery in the trash?

Sticking any old battery in the trash may pose a fire risk or cause environmental harm. The best way to recycle or dispose of batteries is to contact your city to find out about available battery disposal policies or recycling programs. Steph Coelho is a freelance writer and homebody with a passion for home and kitchen goods.

Can you put batteries in a recycling bin?

Instead, pop household batteries in an old bag or tub until you're ready to visit your nearest recycling point. Some local authorities do collect batteries along with your other recycling, so it's worth checking your council website first. You're all ready to dispose of your batteries correctly.
