

Is a battery-powered family car worth buying

Are electric cars worth it?

While EVs can still be pricey, more and more options are being launched for those looking for something for the family. Electric cars are, in some cases, more practical and spacious than cars with engines due to how they're constructed, allowing more rear space or a more easily accessible boot area, for instance.

What are the best electric family cars?

The Hyundai Kona Electric is one of our favourite electric family cars because it builds on what was already a very well-received recipe for the model that came before it.

Are electric cars worth it in 2024?

The SMMT (Society of Motor Manufacturers and Traders) says that, in 2024, the average battery range for an electric car is closing in on 300 miles (up from 210 miles in 2020), and it agrees that almost every segment of the car market has an electric option. Cons: Electric cars are still more expensive than their petrol or diesel counterparts.

Which electric car should I buy?

You'll probably need an electric car with seven seats, which means your choices are limited. There are plenty of seven-seat electric MPVs from Stellantis, such as the Vauxhall Vivaro Life Electric and the Peugeot e-Rifter. If you don't want to drive around in something that looks like a van, you could try the Mercedes EQB or Kia EV9.

Do electric cars make sense for families?

Electric cars are starting to make sense for families because manufacturers have finally managed to increase their maximum range figures to an acceptable level. Most of the cars on this list can cover at least 200 miles on a charge, which is ample for most commuting and school-run requirements.

Are electric cars a good choice for UK car buyers?

Electric cars are now a mainstream choice for UK car buyers and there are plenty of excellent EVs to choose from on the market. The best electric cars on sale come in all shapes and sizes with first class EV options available right through the market sectors from small cars and family SUVs to executive saloons and luxury cars.
