

Does Kazakhstan need lithium?

He also noted that Kazakhstan's industry doesn't need lithium at all. Knauf Gruppe, GP G&#252;nter Papenburg AG and Roxtec, leading German companies, have established a consortium in order to explore and produce lithium in Kazakhstan, according to the Ministry of Industry and Construction of the Republic of Kazakhstan.

Which German companies are developing a lithium project in Kazakhstan?

Knauf Gruppe, GP G&#252;nter Papenburg AG and Roxtec, leading German companies, have established a consortium in order to explore and produce lithium in Kazakhstan, according to the Ministry of Industry and Construction of the Republic of Kazakhstan. German Institute for Technologies and Economics of Lithium (ITEL) will also take part in the project.

Will Kazakhstan gain market share in battery materials?

The country wants to gain market share in battery materials such as lithium, cobalt, manganese, nickel and graphite amid rising demand for the materials, Sharlapaev said. Kazakhstan already mines manganese, but last year it launched processing of manganese sulphate and aims to eventually capture 10% of the global market for the battery material.

What is going on with Kazakhstani lithium reserves?

The consortium participants have already established a working group that is expected to review the potential of Kazakhstani lithium reserves. In June 2023, HMS Bergbau AG, another German company, agreed to cooperate with Kazakhstan's Creada Corporation and allocate \$200 million in investments for lithium exploration in the country.

Are there lithium fields in Kazakhstan?

As Chair of the National Geological Service of Kazakhstan Yerlan Galiyev noted in November 2023, six fields in Kazakhstan might contain lithium: Yubileynoe, Verkhne-Baymurzinskoye, Bakenny, Akhmetkino, Medvedka and Akhmirovskoye.

Why is Kazakhstan launching new EV exploration licences?

Kazakhstan aims to boost output of metals needed for electric vehicle (EV) batteries and is issuing hundreds of new exploration licences to attract fresh investment in the sector, the country's industry minister told Reuters.

Lithium. Depending on the green scenario, global annual demand for lithium is expected to increase from 130 thousand tonnes in 2022 to 312-721 thousand tonnes by 2030. Kazakhstan's geology services have been ...
