

Which fire extinguishers can be used on lithium-ion batteries?

The following fire extinguishers are specifically designed for use on lithium-ion battery fires which are not the same as standard lithium batteries (use a Class D L2 Powder Extinguisher on standard lithium battery fires).

What is AVD fire extinguisher?

AVD is a pioneering fire extinguishing agent that is specifically designed to tackle the particular threat posed by lithium battery fires. It is the only agent that contains, cools and extinguishes lithium battery fires and can be used in both portable and fixed fire safety systems - including sprinklers and lithium battery fire extinguishers.

What is a Firechief Lith-ex fire extinguisher?

Firechief Lith-Ex Fire Extinguishers are designed to suppress Lithium-ion battery fires in their infancy before developing into a fully established fire. They can also be used to protect against fires where batteries are stored or charged.

Are lithium-ion battery fire extinguishers BS EN3 certified?

While a BS EN3 certificate specifically for portable fire extinguishers addressing lithium-ion battery fires is yet to be established, we stand at the forefront of innovation in this field.

How AVD encapsulate lithium-ion battery fires?

AVD products use "Aqueous Vermiculite Dispersion" (AVD) technology to quickly encapsulate and contain lithium battery fires. The AVD liquid is applied through a hand-held fire extinguisher sized for the risk. Welcome to our official Lith-Ex distributor for UAE. Are you prepared for a lithium-ion battery fire?

What is an aqueous vermiculite dispersion fire extinguisher?

Our specialist fire extinguishers are filled with Aqueous Vermiculite Dispersion (AVD) fire extinguishing agent, specifically designed for lithium-ion battery fires. From 27th May to 2nd June 2024, the main focus of the event is on raising awareness and promoting safety practices to prevent fires caused by lithium battery devices aboard vessels.

At present, lithium-ion batteries (LIBs) with excellent performance have attracted the attention of the industry, but there are still many fire and explosion risks, threatening the ...

Selecting a 9 litre LFX Battery Fire Extinguisher means you're equipped with the best option for fighting fires involving large portable devices, including e-bikes and e-scooters, which are ...

AVD is a pioneering fire extinguishing agent that is specifically designed to tackle the particular threat posed

Lithium battery automatic fire extinguishing device

by lithium battery fires. It is the only agent that contains, cools and extinguishes ...

Lith-Ex extinguishers are ideally suited for Lithium-based battery fires such as those which may occur with personal electronic devices, for example, mobile phones and tablets.

Lithium battery fire extinguishers represent a major innovation in tackling the unique risks associated with lithium battery fires, offering more effective suppression ...

What are lithium battery fire extinguishers? Lithium-ion battery fires are unlike most other fires, and when they start they can burn fiercely, spread quickly and potentially explode. Once ...

The ONLY All-Natural Multi-Class Lithium Battery Fire Extinguisher. For use on all electric vehicles, bicycles, scooters and more. Keep one handy and Order yours today!

It has an element for automatic fire detection and automatic activation of the extinguishing device called a "thermal cord". with which its rated temperature is 175° and has a blue color. This 12 ...

Firechief Lith-Ex Fire Extinguishers are designed to suppress Lithium-ion battery fires in their infancy before developing into a fully established fire. They can also be used to ...

Lithium battery fire extinguishers represent a major innovation in tackling the unique risks associated with lithium battery fires, offering more effective suppression compared to traditional methods.

The FireShield LFX Lithium-Ion Battery Fire Extinguishers tackle the unique risks of lithium-ion battery fires. And is 100% fluorine-free. These Fire Extinguishers are designed to combat ...

Automaticer Fire extinguishing Device: An innovative microcapsule fire extinguishing device. It is small, maintenance-free, pressure-free, and can automatically extinguish fires. It has high ...

Specialist Lithium Battery Fire Extinguishers and accessories designed to extinguish Lithium-ion battery fires fast. These Extinguishers contain a special additive that helps to extinguish small ...

When facing a lithium battery fire, evacuate immediately and call for professional assistance. Use Class D extinguishing agents specifically designed for metal fires; avoid water ...

The following fire extinguishers are specifically designed for use on lithium-ion battery fires which are not the same as standard lithium batteries (use a Class D L2 Powder Extinguisher on ...

Upon activation, the condensed aerosol forming compound transforms from a solid state into a rapidly expanding two-phased fire suppression agent; consisting of Potassium Carbonate solid ...

Our 6 litre LFX Fire Extinguisher is one of the safest methods for tackling fires involving Lithium-Ion batteries. It is suitable for battery capacities up to 600Wh, making it an excellent choice for ...

For fires involving lithium-ion batteries, the most effective fire extinguishers contain an AVD (Aqueous Vermiculite Dispersion) solution such as the Lith-Ex range. However, unlike primary ...

The best fire extinguisher for lithium-ion battery fires is a Class D extinguisher specifically designed for combustible metals. Alternatively, dry chemical agents or foam ...

This is where lithium-ion fire extinguishers come into play, as they are engineered to address the specific hazards associated with lithium-ion battery fires. Lithium ...
