

# Lithium battery loading and customs declaration

Do lithium ion batteries have to be on a shipper's declaration?

No. For lithium ion batteries shipped in accordance with Section IA or Section IB of PI 965, which must be on a Shipper's Declaration, the Shipper's Declaration includes a certification statement "I declare that all of the applicable air transport requirements have been met."

What are the shipping requirements for lithium ion batteries?

In addition, lithium-ion cells and batteries shipped by themselves must be shipped at a state of charge not exceeding 30% of their rated capacity. Lithium batteries are dangerous goods, and all of the regulatory requirements must be complied with, as set out in the Lithium Battery Shipping Regulations.

How do I ship lithium batteries internationally?

For shipping Lithium Batteries internationally by air, whether they are packed with equipment or alone, the shipper should complete the Lithium Battery - Shipper Declaration Letter and Battery Label, as described in this user guide.

How do I attach a lithium battery - shipper declaration letter?

Please place the completed Lithium Battery - Shipper Declaration Letter in document pouch or attach it to the outside of the packaging, while the completed Lithium Battery label should be attached directly to the packages. This guide is for illustrative purposes only.

Is a lithium battery mark required on a package?

G. Section II in Packing Instructions 967 and 970 states that "the lithium battery mark is not required on consignments of two packages or less where each package contains no more than four cells, or two batteries installed in equipment." What is the intent of this provision?

Is DHL liable if a battery is omitted?

DHL will not be held responsible for any inaccuracy, error or omission, regardless of cause. Step 1 - What type of battery are you shipping? Rechargeable (secondary) lithium ion or lithium polymer cells or batteries.
