

Company; Partnership/Joint Announcement; Panasonic Energy Signs Agreement with H& T for the Supply of Lithium-ion EV Battery Cylindrical Cans; Print. ... Ltd. ...

The partnership aims to develop lithium-sulfur EV batteries with game ...

Company; Partnership/Joint Announcement; ... to Collaborate with Australia's National Science Agency CSIRO to Develop Nickel Laterite Processing Technologies for ...

Panasonic Energy Co., Ltd. has issued a press release entitled Panasonic Energy Signs Agreement with H& T for the Supply of Lithium-ion EV Battery Cylindrical Cans.

Panasonic Energy Co., Ltd. and Mazda Motor Corporation today announced that they will prepare for the supply of next-generation cylindrical automotive lithium-ion batteries, ...

SAN JOSE, Calif., and RENO, Nev., Oct. 15, 2024 - (BUSINESS WIRE) - Lyten, the supermaterial applications company and global leader in Lithium-Sulfur batteries, ...

Ilika (AIM: IKA), a pioneer in solid state battery technology, announces it has reached its 2023 stated intermediate technology development target of lithium-ion energy ...

The facility will manufacture cathode active materials, lithium metal anodes and assemble lithium-sulfur cells, enabling a 100% domestically manufactured battery. Lyten has ...

4 ???&#0183; Franco-Italian automaker Stellantis and Chinese battery giant Contemporary Amperex Technology Co Ltd announced on Tuesday an investment of 4.1 billion euros (\$4.3 billion) to ...

Subaru Corporation and Panasonic Energy Co., Ltd. today announced plans to prepare for the supply of automotive lithium-ion batteries and joint establishment of a new battery factory in Oizumi, Gunma, Japan.

According to a news released by the Electronic Information Department of the Ministry of Industry and Information Technology on December 10, in order to further strengthen the management of the lithium-ion battery industry and ...

6 ???&#0183; Joint venture to build an all-new lithium iron phosphate (LFP) battery plant at Stellantis" Zaragoza, Spain site Production is planned to start by end of 2026 and could reach up to 50 ...

In this piece, we highlight four key players in the lithium and battery space. It serves as a follow-up to our 2020 piece by the same name. -- BYD: Vertically integrated ...

The battery separators play a critical role in lithium-ion batteries, enabling higher energy density and long-term durability, essential for EVs and other energy storage ...

Ilika (AIM: IKA), a pioneer in solid state battery technology, announces it has ...

Gelion (AIM: GELN), the Anglo-Australian battery innovator, announces an update on its Next Generation Lithium-Sulfur (Li-S) battery development. Gelion is pleased to ...

The partnership aims to develop lithium-sulfur EV batteries with game-changing gravimetric energy density while achieving a volumetric energy density comparable to today's ...

Panasonic Energy Co., Ltd. and Mazda Motor Corporation today announced that they will prepare for the supply of next-generation cylindrical automotive lithium-ion batteries, in anticipation of their installation in Mazda's ...

5 ???&#0183; BARCELONA, Spain (AP) -- Chinese electric battery company CATL and automaker Stellantis will build a major battery factory in northern Spain, the partners announced Tuesday. ...

Performance (lithium-ion): planned for introduction with the next generation Toyota BEVs from 2026, the Performance lithium-ion battery will increase driving range to ...
