

# Lithium iron phosphate battery factory in Portugal

Will China build a lithium-ion battery factory in Portugal?

Lisbon: Chinese manufacturer CALB is planning on building a lithium-ion battery factory in Portugal, the APA Portuguese environment agency said on Monday. Portugal has the largest reserves in Europe of lithium, the main element in the batteries that power electric cars.

Will Portugal invest in a lithium battery factory in Sines in 2023?

A planned lithium battery factory in the port of Sines leads a raft of new foreign direct investment (FDI) projects secured by Portugal in 2023. The 36 projects will net the country over 2.7 billion euros and are part of the largest influx of such investment in Portugal since 2016.

How much money will Portugal invest in a new lithium battery?

The 36 projects will net the country over 2.7 billion euros and are part of the largest influx of such investment in Portugal since 2016. China Aviation Lithium Battery (CALB) will invest 2 billion euros in the state-of-the-art factory - its first in Europe.

What's going on with a lithium-ion cell factory in Portugal?

To be more specific, the deal was signed with Global Parques, a subsidiary of the Agência para o Investimento e Comércio Externo de Portugal (Portuguese Agency for Investment and Foreign Trade, or AICEP). According to Agência Lusa, the plan is to build the lithium-ion cell factory in Sines, Setúbal.

Does APA approve a EUR2 billion lithium battery project?

APA approves EUR2 billion project of CALB (China Aviation Lithium Battery), with 'more than 90 conditions' Chinese group CALB (standing for China Aviation Lithium Battery) has received a favourable environmental impact assessment, with 'dozens of conditions', for its EUR2 billion project for a lithium battery factory in Sines.

Will Portugal be the largest integrated lithium conversion plant in Europe?

Northvolt insists that the Portuguese plant will be "the largest and most sustainable integrated lithium conversion plant in Europe" and "a milestone in the development of a European battery value chain".

Chinese manufacturer CALB is planning on building a lithium-ion battery factory in Portugal, the APA Portuguese environment agency said on Monday.

American Battery Factory has started construction on its gigafactory in Arizona, US, which will produce lithium iron phosphate (LFP) battery cells. The company announced ...
