

Moscow independent energy storage project bidding announcement

How many projects in Poland have received a grid connection offer?

As of October 2023, around 9GW of projects have received grid connection offers from Poland's Transmission System Operator PSE. Only 6 projects with a total capacity of around 1.5GW, have agreed on the proposed terms with the TSO, with an expected connection date post-2027.

How many MW of energy storage projects are there in Canada?

"At Energy Storage Canada we're excited to see the IESO's announcement of more than 700 MW of energy storage projects as the next step in Canada's largest energy storage procurement to date," said Justin Rangooni, Executive Director, Energy Storage Canada.

Which energy storage projects are advancing in Canada?

In addition to BESS projects, there are also many Long Duration Energy Storage (LDES) technology-based projects advancing in Canada such as compressed air, pumped hydro and other non-lithium ion battery chemistries. About Energy Storage Canada: Energy Storage Canada is the only national voice for energy storage in Canada today.

How much energy storage capacity will Ontario have by 2026?

The IESO expects Ontario will have at least 1217 MW of energy storage capacity active in the market by 2026. The seven projects announced as part of the initial 739 MW are in different places throughout the province and range in size from 5 to 300 MW.

Why did Ontario announce 2500 MW of energy storage?

The announcement is part of the province's ongoing procurement for 2500 MW of energy storage to support the decarbonization and electrification of Ontario's grid, which was originally announced in October, 2022.
