

How do you change a car battery?

This article has been viewed 2,158,304 times. To change a car battery, pop the hood of your car and locate the battery, which will be kept on either side of the car's frame. Disconnect the negative terminal, which is labeled with a minus sign, before disconnecting the positive terminal to keep it from short-circuiting.

How do you find a car battery?

Locate the battery. Look for the battery in one corner of the engine bay, either near the windshield or the front bumper on either side of the car. Find the rectangular battery box which has 2 cables attached to it. If you have a newer car, the battery might be underneath a plastic cover, so remove the cover if necessary.

How do you replace a battery?

Secure the new battery to the bracket and grease the terminals. Place the new battery in the battery tray and secure it to the bracket. Simply reverse the process you used to remove the battery from the bracket. Then, coat each of the terminals in a thin layer of lithium grease to prevent corrosion.

How to dispose of an old car battery?

Next, remove the battery and clean the terminal clamps with baking soda and a wire brush. Then, insert the new battery, and connect the positive and negative terminals. Finally, tighten the terminal clamps with a wrench and spray them with lithium grease to prevent corrosion. To learn how to properly dispose of an old car battery, keep scrolling!

What to do if a car battery is corrosive?

Put on safety gear and pop your hood. Batteries contain a sulfuric acid electrolyte solution, which is highly corrosive, can burn your skin, and produces flammable hydrogen gas. Put on insulated work gloves and safety goggles to protect yourself. Then, open your hood and prop it up with a rod, if necessary.

How do I fix a bad battery?

Reconnect the positive cable first. Undo the cable tie securing the positive cable to the engine bay, being careful not to touch the end of it to anything metal. Put the cable over the terminal and tighten it down with a wrench. Put the cover over the terminal, if the battery has one.
