

Who is Tob new energy?

TOB NEW ENERGY provide a full set of super-capacitor production equipment, testing equipment and materials. TOB New Energy send engineers to the customer's factory for equipment debugging until the super-capacitor production line can run normally. After the project is completed, supply good after sales service to promise the line running stable.

What are the products & services of a battery manufacturer?

Our main products include Battery mixer, Electrode coating machine, Electrode slitting machine, Battery winding machine, Electrode stacking machine, Battery sealing and crimping machine, and Battery test system.

Why do we need a new energy manufacturing equipment field?

It boosts delivery efficiency by 50% and cuts down design-related issues by 80%. This field is for validation purposes and should be left unchanged. LEAD is one of the world's largest suppliers of new energy manufacturing equipment serving automotive, renewable energy & technology sectors.

What equipment does Tob new energy provide for lithium ion coin cell research?

TOB New Energy provides professional coin cell lab equipment for lithium ion coin cell lab research, mainly include the small mixer device for slurry, manual film coating machine, electrode cutter, electrode press machine and crimping machine for coin cell sealing.

What kind of equipment do you need for battery manufacturing?

Full set of battery materials for battery R&D and manufacturing. Provide laboratory mixer, vacuum mixer and planetary mixing machine. Provide lab coater, film applicator, roll coater, Comma blade coater, slot die coating machine. Provide battery electrode calender with different working width and pressure.

What is lithium ion battery testing equipment?

Lithium ion Battery Testing Equipment is used for pouch cell, cylinder cell, coin cell parameter testing, it can test voltage, cycle life, capacity and resistance. A full set of lithium battery producing equipment from mixing to last testing equipment, including Manual machine, semi-auto battery machine and full auto battery machine.

WHAT WE DO?

Contact our e-mobility engineers to help you optimize floor space, customize solutions, and provide technical support for high demand in the EV battery field.
