

Will SSE invest in a battery storage project in Northern Ireland?

Mark Ennis, Chairperson of SSE plc in Ireland, said at the announcement: "With the return of the Stormont Executive, there is no better time for SSE to be making its first investment in a battery storage project in Northern Ireland.

How will the energy storage site connect to Northern Ireland's Electricity Grid?

The energy storage site will connect to Northern Ireland's electricity grid via an underground cable to the existing nearby Tamnamore substation. Damien O'Callaghan, Managing Director, Heron Group, said: "At the heart of our vision and values lies a commitment to sustainability and responsible business practices.

How much energy can a Derryreen BESS store?

The Derryreen BESS would be capable of storing up to 200MWh of energy for flexible dispatch when needed for use by Northern Ireland homes and businesses at times of peak demand. When called upon, the system would be capable of providing back-up energy to the equivalent of over 135,000 homes in Northern Ireland for up to two hours at a time *.

Will Mid Ulster get planning consent for a new energy storage site?

The project secured planning consent from Mid Ulster District Council in 2023. The energy storage site will connect to Northern Ireland's electricity grid via an underground cable to the existing nearby Tamnamore substation.
