

How do I change my solar charger and MPPT control settings?

Settings menu In the settings menu the the solar charger and MPPT Control settings can be viewed and changed. Do not change settings unless you know what they are and what the effect of changing these setting can be. Incorrect settings may cause system problems including damage to batteries.

What is a system controller manual?

This manual is a component of the system controller and must be included with it when sold on. The manufacturer cannot monitor the compliance to this manual, nor the conditions and methods of installation, operation, usage and maintenance of the system controller.

How to install suncontrol2?

7. INSTALLATION Place the SUNCONTROL2 on the chosen surface and secure the entire device using the fixing holes integrated in the shell with the supplied screws or equivalent (Fig.1). Fig. 1 All electrical and setup connections are on the front, it is not necessary to disassemble the plastic shells, except for the protection fuse replacement.

Can a solar controller be damaged if one component is incorrectly connected?

Caution Danger of damage to the controller. Despite the protective functions, the controller can still be damaged when more than one component is incorrectly connected. The rated power of the solar modules must not exceed the rated power of the controller! Protects the controller but not the load device.

How do I uninstall a photovoltaic battery?

Install a fuse in the battery connection cable to protect the battery. Connect the battery to the charge controller - plus and minus. Connect the photovoltaic modules to the charge controller - plus and minus. Connect the load to the charge controller - plus and minus. Follow the reverse procedure when uninstalling!

Can I install the controller outside?

Do not install the controller outside. The device must be mounted protected from moisture, dripping water, spray, rainwater and direct or indirect heat-ing, e.g. from direct sunlight. The device generates heat during normal operation.
