

# Ranking of lithium carbonate battery import companies

Which countries dominate the lithium-ion battery supply chain?

Now, let's take a look at the top 10 countries at the ranking. China remains top of the global lithium-ion battery supply chain ranking for three consecutive years, and will continue to dominate the supply chain through 2027, said the BloombergNEF, a research provider covering the global commodity market, on Nov 12.

What is the global lithium-ion battery supply chain ranking?

Now in its fourth edition, the Global Lithium-Ion Battery Supply Chain Ranking considers 46 individual metrics to track the supply chain potential across five equally weighted categories: raw materials, battery manufacturing, downstream demand, ESG considerations, and 'industry, infrastructure and innovation'.

Can Canada build a sustainable lithium-ion battery supply chain?

London, February 5, 2024 - Canada has overtaken China for the top spot in BloombergNEF's (BNEF's) Global Lithium-Ion Battery Supply Chain Ranking, an annual assessment that rates 30 countries on their potential to build a secure, reliable, and sustainable lithium-ion battery supply chain.

Which country imports lithium carbonate (Li<sub>2</sub>CO<sub>3</sub>)?

China is the world's leading importer country of lithium carbonate (Li<sub>2</sub>CO<sub>3</sub>). In 2021, the East Asian country imported 81 thousand metric tons of the compound, with a value of 562.06 million U.S. dollars. Ranking second was South Korea, which imported nearly 384.37 million U.S. dollars of Li<sub>2</sub>CO<sub>3</sub>.

Which countries import lithium carbonates?

In 2021, the top importers of Lithium carbonates were China (\$583M), South Korea (\$326M), Japan (\$164M), United States (\$84.1M), and Belgium (\$74.5M). Between 2020 and 2021, the exports of Lithium carbonates grew the fastest in Chile (\$235M), Argentina (\$120M), China (\$35M), South Korea (\$26.5M), and Netherlands (\$19.2M).

Which country produces the most lithium-ion batteries in Europe?

In Europe, Germany is forecasted to lead in lithium-ion battery production, with 262 gigawatt-hours, most of it coming from Tesla. The company currently operates its Giga Berlin plant in the country, Tesla's first manufacturing location in Europe.

China is the world's leading importer country of lithium carbonate (Li<sub>2</sub>CO<sub>3</sub>). ...

London, February 5, 2024 - Canada has overtaken China for the top spot in BloombergNEF's (BNEF's) Global Lithium-Ion Battery Supply Chain Ranking, an annual assessment that rates ...

Imports of lithium primary cells and batteries (non-rechargeable) and lithium-ion batteries were \$138 million

# Ranking of lithium carbonate battery import companies

and \$1,033 million, respectively, up from \$92 million and \$742 million in 2021. China and the United States ...

The economic viability in running lithium-ion battery recycling operations has suffered this year, with prices for battery metals declining significantly, according to market ...

Imports In 2022 the top importers of Lithium carbonates were China (\$6.17B), South Korea (\$1.38B), Japan (\$1.07B), United Kingdom (\$194M), and United States (\$191M). Ranking ...

Chinese companies are expected to hold nearly 70% of global battery capacity by decade's end. This graphic uses exclusive data from our partner, Benchmark Mineral ...

This is the third edition of BloombergNEF's Global Lithium-Ion Battery Supply Chain Ranking. ...

Imports In 2022 the top importers of Lithium carbonates were China (\$6.17B), South Korea ...

The largest lithium-ion battery companies worldwide were located in the Asian continent. China, South Korea, and Japan led the ranking in 2023.

Lithium Carbonate Market Size, Capacity, Demand & Supply 2024. The Global Lithium Carbonate Market Size was estimated at USD 3621.82 million in 2023 and is projected ...

Explore the world's best import markets for lithium carbonate, backed by key ...

Explore the world's best import markets for lithium carbonate, backed by key statistics. Discover the leading countries importing lithium carbonate, including China, South ...

The twenty top-ranking companies in lithium mine production in 2018 (S& P 2020). Distribution of the mine production of graphite globally and in Europe in 2019 (USGS 2020b). ...

The world shipped 43.9 GWh of energy storage batteries in the first quarter of 2023. Shipping 14 GWh, CATL topped the spot as the leading battery manufacturer but saw a ...

This is the third edition of BloombergNEF's Global Lithium-Ion Battery Supply Chain Ranking. BloombergNEF ranks 30 leading countries across the lithium-ion battery supply chain based ...

Over the five-year period, we observed a decline in the importance of import countries such as Chile and Argentina and a decline in importance of lithium resource ...

The world's leading lithium carbonate importing country in 2022 was China, importing over six billion U.S.

# Ranking of lithium carbonate battery import companies

London, February 5, 2024 - Canada has overtaken China for the top spot in BloombergNEF's (BNEF's) Global Lithium-Ion Battery Supply Chain Ranking, an annual assessment that rates 30 countries on their potential to build a secure, ...

China is the world's leading importer country of lithium carbonate ( $\text{Li}_2\text{CO}_3$ ). In 2023, the East Asian country imported 158 thousand metric tons of the compound, with a ...

2. Chile Mine production: 44,000 MT. Lithium miners in Chile increased the nation's output from 38,000 MT of lithium in 2022 to 44,000 MT last year, making it the second ...
