

Will a new battery factory be built in Latvia?

Facebook The Swedish company Anodox Energy Systems wants to build two factories in Latvia to produce batteries for electric vehicles. According to Latvia's Ministry of Economy, a plant for the assembly of battery packs will be built first in the port of Riga. The second plant, which will focus on cell production, is to follow shortly afterwards.

Where are the world's largest EV battery manufacturers in 2023?

Asia dominates this ranking of the world's largest EV battery manufacturers in 2023. See which battery makers feature in the top 10.

How much money will Anodox invest in Riga?

A total of 50 million euros will be invested and up to 300 new jobs created, according to the Ministry of Economy. The factory in Riga is to go into operation by December 2022. In the first phase, Anodox wants to produce high-quality battery packs for electric cars and light commercial vehicles in the automated factory.

Which battery maker has the most competitive EV product?

Still, the top three battery makers are responsible for two thirds (66%) of the total battery deployment, which highlights the importance of scale in this business, in order to have the most competitive product on the market. Panasonic, once upon a time a leader in the automotive EV business, has continued its slow slide down the table.

Which countries will produce the most lithium-ion batteries in 2030?

By 2030, the U.S. is expected to be second in battery capacity after China, with 1,261 gigawatt-hours, led by LG Energy Solution and Tesla. In Europe, Germany is forecasted to lead in lithium-ion battery production, with 262 gigawatt-hours, most of it coming from Tesla.

Who is the largest battery company in the world?

Contemporary Amperex Technology Co. Limited (CATL) has swiftly risen in less than a decade to claim the title of the largest global battery group. The Chinese company now has a 34% share of the market and supplies batteries to a range of made-in-China vehicles, including the Tesla Model Y, SAIC's MG4/Mulan, and various Li Auto models.

Riga Enterprises, SIA, Limited liability company (SIA), 40203452566, Rīga, Traleru iela 30A, LV-1030. Company officials, members and true beneficiaries.
