What are ATEX & IECEx compliant battery systems?

Our Ex d / Ex tb ATEX and IECEx compliant battery systems are rated 12V or 24V and range from 4.5Ah up to 18Ah. They are intended for use in areas made potentially hazardous by the presence of flammable liquids, gases or vapours and dusts, including Hydrogen (H₂ certified) (Zone 1, Zone 2, Zone 21 or Zone 22). Suitable for Groups IIB and IIIC.

What is the iBAT5xx battery enclosure?

The iBATT5xx is a battery enclosure for Zone 1 and Zone 2 and is designed to be configured to suit your application. Available in a wide range of sizes, the iBAT5xx can house a variety of different lead acid, nickel cadmium, and nickel iron batteries. Want to find out more?

What is a Pyroban explosion protection battery?

The Pyroban explosion protection offshore battery is designed for use in hazardous areas and are corrosion resistant with a 316 stainless casing. The 12V and 24V units contain deep cycle batteries protected with a 50A MCB isolator. These ATEX batteries are not suited to engine cranking applications.

Our Ex d / Ex tb ATEX and IECEx compliant battery systems are rated 12V or 24V and range from 4.5Ah up to 18Ah. They are intended for use in areas made potentially hazardous by the ...

Oil & Gas Bespoke Atex approved Battery enclosure Zone 1 & Zone, custom design service. We offer bespoke explosion proof battery enclosures, complete with batteries for Hazardous areas ...

The iBATT5xx is a battery enclosure for Zone 1 and Zone 2 and is designed to be configured to suit your application. Available in a wide range of sizes, the iBAT5xx can house a variety of ...

Discover the perfect Junction Box addition with our Explosion Proof Enclosures. Junction boxes are typically manufactured using materials such as aluminum, stainless steel, or PVC. It's ...

China Explosion Proof Phone wholesale - Select 2024 high quality Explosion Proof Phone products in best price from certified Chinese Phone Number manufacturers, Explosion Proof ...

Our ATEX compliant battery systems range from 4.5Ah up to 5000Ah and are intended for use in areas made potentially hazardous by the presence of flammable liquids, gases or vapors (Zone 1, Zone 2, Zone 21 or Zone 22). Our ...

AceOn Group are suppliers of ATEX battery packs - designed for use in hazardous & explosive atmospheres and incorporate various safety features. Search 44 (0)1952 293 388
