SOLAR PRO. Solar cell export tariffs in Jordan

Does Jordan have a solar energy policy?

Jordan has implemented several policies to encourage the growth of solar energy in the country. In 2012, the government introduced a feed-in tariff system that offers a fixed rate for solar energy producers to sell their electricity to the grid.

What is the Jordan customs integrated tariff system (CITS)?

Includes information on average tariff rates and types that U.S. firms should be aware of when exporting to the market. Jordan Customs uses the Customs Integrated Tariff System (CITS), which importers may utilize to determine commodity tariffs, import conditions and commodity trade agreements, regulations and requirements of the commodity trade.

What is the outlook for solar energy in Jordan?

Looking ahead, the outlook for solar energy in Jordan is positive. According to a report by the International Renewable Energy Agency (IRENA), Jordan is expected to increase its solar energy capacity to 2.7 GW by 2023, up from 1.7 GW in 2020.

What percentage of Jordan's electricity is generated by solar energy?

Currently, solar energy accounts for around 5% of Jordan's electricity generation capacity. This is relatively low compared to other countries in the region, such as the United Arab Emirates and Saudi Arabia, which have made significant investments in solar energy.

What are the risks of solar energy in Jordan?

However, there are also risks to this outlook, including the ongoing regional conflicts and the impact of the COVID-19 pandemic on the global economy. Currently, solar energy accounts for around 5% of Jordan's electricity generation capacity.

How does Jordan support the development of solar energy?

In addition, Jordan has signed several agreements with international organizations and foreign governments to support the development of its solar energy sector. For example, in 2018, Jordan signed an agreement with the International Finance Corporation (IFC) to support the development of a 200 MW solar project in the country.
