

How to maintain a portable solar generator?

Inadequate ventilation and improper storage can cause damage to the unit, so it is important to follow these guidelines to ensure the longevity of your portable solar generator. Consider placing it in an open space with good airflow or using a fan to enhance ventilation.

How do I avoid overloading my solar generator?

To avoid overloading your solar generator, always check the total rated watts of the inverter and never load more than the unit specifies. Additionally, be mindful of the devices you plug into your solar generator and their power requirements. Always refer to the manufacturer's guidelines to ensure safe and optimal use of your solar generator.

How do you clean a solar generator?

All you need is water, and a little bit goes a long way with microfiber. Not only is it effective at cleaning, but it is also lint-free, leaving no fibers or residue behind on your generator. Additionally, it's important to clean solar panels regularly and inspect the battery and connections.

Can a portable solar generator be overcharged?

Overcharging is a common cause of damage to portable solar generators. It's important to always follow the manufacturer's instructions for charging and use. This includes using the recommended charger and avoiding charging the generator for too long.

How do you store a solar power generator?

The first thing to ensure proper storage of your solar power generator, is to ensure the unit itself is turned OFF. This will help prevent any discharge or damage to the battery and ensure that it's ready to go when you need it. The second thing to keep in mind is the temperature.

How do you use a portable solar generator?

Use at least 25% of your battery's capacity: Use your portable solar generator until it is at 75% capacity or below. This ensures that your battery is being used and prevents it from staying at a full charge for too long.  
Recharge to 50-75% capacity: Once your battery is at 75% capacity or below, recharge it back up to 50-75% capacity.
