

Do you need planning permission to install solar panels on your roof?

An increasing number of people are investing in solar energy. More and more homes are having solar panels, or solar tiles, installed on their roofs. Of course, with such installations, the topic of planning permission and building regulations often comes to the surface.

How do I get Building Regulations approval for solar panels?

To obtain building regulations approval for solar panels, homeowners or installers typically need to submit detailed plans and specifications to the local building control authority. These plans should demonstrate that the installation will meet all relevant standards and regulations.

Can you install solar panels on your roof?

Homes and businesses will be able to install rooftop solar panels more easily, under new rules announced today. Changes to permitted development rights rules will mean more homeowners and businesses will be able to install solar panels on their roofs without going through the planning system.

Can I install solar panels if I don't meet building regulations?

Your local authority can also apply for a Confiscation Order to take away any money you've earned with your system - so there's absolutely no benefit to installing solar panels that don't meet building regulations. It's crucial that your solar installation follows all building regulations.

Will homeowners be able to install rooftop solar panels more easily?

Homeowners will be able to install rooftop solar panels more easily without costly planning delays. This was published under the 2022 to 2024 Sunak Conservative government. Homes and businesses will be able to install rooftop solar panels more easily, under new rules announced today.

Should solar equipment be mounted on a roof?

If the property is situated on a World Heritage Site or conservation area, solar equipment should not be mounted on a roof that forms the front face of the building or the side of the building visible from a public road. If your property is a listed building, you should consult your local planning officer.
