

How much do garden solar panels cost?

The cost of garden solar panels will depend on the type of garden solar panels you choose. Ground-mounted solar panels are the most expensive option. A 10 panel system large enough to power an average three-bedroom house will cost around £7,026 to buy and install.

What is a small Solar power system?

Each small solar power system is a complete kit that includes solar panels, inverter, batteries and the cables and fixings necessary to generate renewable energy. Our small solar panel kits are DIY but Sunstore can arrange professional installation for you if you prefer. Sale!

Which solar panels should you choose for your garden?

However, if space is limited, you can opt for smaller panels, such as portable solar panels, or even mini solar panels that power garden lights, all of which you can set up yourself. Solar panel pergolas are also something those with a modest amount of space should consider.

Can you use solar panels in a garden?

As you can see, there are lots of ways to use solar panels in a garden. You can get anything from small, affordable solar lights, to large ground-mounted solar panel systems that can power a house. Either way, using solar panels is a great way to save on electricity bills, and lower your carbon footprint in the process.

What types of solar panels are available at Sunstore?

The range includes 1200W solar panel kits, 1800W solar panel kits, 2400W solar panel kits and 2700W solar panel kits.
