

Where can I buy aluminum electrolytic capacitors?

The link could not be generated at this time. Please try again. Aluminum Electrolytic Capacitors are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for many aluminum electrolytic capacitor manufacturers including Chemi-Con, Cornell Dubilier, KEMET, Nichicon, Panasonic, TDK, Vishay & more.

What are aluminium capacitors?

Aluminium capacitors are a form of polarised electrolytic capacitor. A thin layer of aluminium is used as a dielectric so that energy flows in one direction.

What are high voltage aluminium electrolytic capacitors?

High voltage aluminium electrolytic capacitors are the backbone of industrial and automotive electronics, with working voltages  $U_R \geq 400$  V. They are used primarily in the DC-link circuit. The advantage of these capacitors is their lower cost compared to other capacitor types, a high CV product, and better cool-ability.

Where can I find high quality capacitors in South Africa?

Discover the power of efficient electrical performance with our premium capacitors. At Toolspare, we stock and have the largest range of high-quality capacitors in South Africa designed to meet the demands of various applications.

What is the core material of aluminum electrolytic capacitors?

The core material of Aluminum electrolytic capacitors is a high purity 4 N 99.99% etched and formed Aluminum foil with standard thickness with between 80  $\mu$ m and 125  $\mu$ m (Ebel, 2003; JCC -Foil). Examples of high and low voltage anode foils are shown in Fig. 3. A high voltage anode foil contains up to 1.2 Mio tunnel of a length of ca 40  $\mu$ m per  $\text{cm}^2$ .

What is a high purity aluminium capacitor?

High purity grade Aluminium is used to create the anode foil and the cathode foil upon which electrolysis is applied to form an extremely thin insulating layer of aluminium oxide, which acts as the dielectric of the capacitor. Aluminium capacitors are found in many applications such as power supplies, computer motherboards and domestic appliances.
