

South Ossetia lithium battery project bidding

What is the second bid window for a battery energy storage system?

The second bid window for the program is currently procuring 615 MW/2,460 MWh in battery energy storage systems projects, with bids due by June 6, 2024. The tender calls for the procurement of 616 MW/2,464 MWh of battery energy storage systems in South Africa.

Who is a preferred bidder for the Mogobe (Ferrum) battery energy storage project?

Oslo, 30 November 2023: Scatec ASA has been awarded preferred bidder status for the Mogobe (Ferrum) battery energy storage project totalling 103 MW/412 MWh under the first bid window of the Battery Energy Storage Independent Power Producer Procurement Programme (BESIPPPP) in South Africa, by the Department of Mineral Resources and Energy.

Where will South Africa's energy projects be located in 2024?

With bids due by July 31, 2024, the projects will be situated at five pre-selected substation sites identified by South African energy company Eskom. The sites include the Harvard, Leander, Theseus, Everest and Merapi substations in the country's Free State province.

Will Scatec Asa build a battery energy storage system?

Oslo, 18 October 2024: Scatec ASA, a leading renewable energy provider, has reached financial close for the Mogobe battery energy storage system ("BESS") facility totaling 103 MW /412 MWh and is now making final preparations to start construction of the project.

How much does Scatec's battery energy storage project cost?

The estimated total capex for the battery energy storage project is ZAR 3.1 billion (USD 163 million) of which Scatec's EPC contracts account for approximately 83%. The project will be financed by ZAR 2.6 billion (USD 138 million) of non-recourse project debt and the remaining by equity from the owners.

How many MW of battery storage will Eskom supply in 2023?

The request for proposal was issued on 7 March 2023, and bid submission on 2 August 2023. The programme aims to procure 513 MW of battery storage via the Department of Mineral Resources and Energy, across five specific Eskom (national utility) transmission substations in the Northern Cape province.
