

# The new energy battery with the longest warranty period

How long does a car battery warranty last?

A typical car battery warranty will last approximately two years or up to 240,000 miles. After that time, you may have to pay a portion of the replacement battery costs, depending on the type of warranty it carries. Some manufacturers are moving away from pro-rated warranties and offering 3, 4, or 5-year warranties instead as better alternatives.

Which EV battery brands have the best warranty?

The table below lists the warranty duration and mileage for the leading EV brands in the UK. Fisker and Lexus offer the best EV battery warranties among the brands listed. Both Fisker and Lexus provide a 10-year or 100,000-mile warranty, which is longer than the 8-year duration offered by most other brands.

Why should you choose a car battery with the longest warranty?

To prevent facing any future issues with any electrical components or your anti-theft system, choosing car batteries with the longest warranty can help make owning a vehicle less stressful. The car battery is the driving power for a vehicle. It provides the initial electricity that makes the electrical components work together and start the car.
