

What is Tianneng battery?

Tianneng Battery adheres to the concept of green and low-carbon recycling development to help industrial recycling economy. We have established lithium battery recycling base and lead-acid battery recycling base, which reduce a lot of carbon emissions every year. Read the news, get the latest information about the company.

Why should you choose Tianneng lithium battery?

In limited small space, more high-energy materials are loaded; Light weight, high energy, long endurance. Pack is smaller. The size of Tianneng lithium battery is almost 30%-40% of that of the same lead-acid battery under the same energy, which is more space saving, more versatile, and easier to install!

Who is Tianneng Battery Company?

Global Leading Green Energy Solution Provider. Founded in 1986, Tianneng Holding Group is a battery manufacturer with more than 30 years' development in China, and has become a leading new energy company in the world. Tianneng provides reliable power battery solutions for all kinds of electric vehicles.

How long do Tianneng ternary lithium batteries last?

The cycles of Tianneng ternary lithium electric products have reached 800 times (100%DOD, 80% EOL), which is far beyond the life of lead-acid batteries. A group of batteries can be easily used for 3 years, and the single use cost is lower!

What is the performance of Tianneng lithium Electric Products?

The high and low temperature performance of Tianneng lithium electric products is better, the low temperature (-20?) can reach more than 90%, the high temperature (55?) can reach more than 95%. 18650 series wide pole ear design, to meet the large current path, 3C rate discharge capacity ratio of more than 95%;

Why is Tianneng Group a leader in lithium ion technology?

To realize the product process quality control, the whole life cycle management, to achieve continuous improvement and quality enhancement Tianneng Group is committed to the research of lithium ion technology, with many years of development and leading technology.

Starting from the production and manufacturing of power batteries, Tianneng is committed to becoming a global leading green energy system solution provider. Its core businesses include new energy battery systems, resource recycling ...

This short video will introduce the Tianneng Group lithium battery technology to you, and you will have a deeper understanding of Tianneng technology. We wel...

Tianneng lithium has been appraised by Ministry of Industry and Information Technology as the ...

Tianneng lithium has been appraised by Ministry of Industry and Information Technology as the intelligent manufacturing project, China's first batch of key laboratory of new energy lithium ...

Tianneng was founded in 1986 and originated from the beautiful shore of Taihu Lake - Huzhou, Zhejiang. Tianneng Group is one of the leading companies in the international battery industry, which mainly focuses on the power battery ...

Tianneng Group branch has established a huge marketing service network throughout the world. Formed a relatively strong business strength, stable and solid marketing partner ...

The cycles of Tianneng ternary lithium electric products have reached 800 times (100%DOD, 80% EOL), which is far beyond the life of lead-acid batteries. A group of batteries can be easily used for 3 years, and the single use cost is lower!

The TNE Series are specifically designed and developed for deep cycle application. This series with a number of national patent technologies and the cycle life can reach 400-600 cycles at ...

Tianneng Group is a battery manufacturer with a history of more than 30 years and has become a leading new energy company in the world. Laman Utama. Produk. Baterai Lead Acid (SLA) ... the largest lithium Pack manufacturer in ...

TTLiF series lithium ion battery, for access to network equipment, mobile communication, transmission equipment and other systems in the base station to provide reliable backup ...

Cell is heart of a lithium battery. With higher energy density, our 18650 cells produced by our own factory can maintain stable battery power and output performance.

We provide green lithium-ion power battery and backup energy storage solutions for various application scenarios, which are widely used in transportation, commuting, tourism, distribution, sanitation, communication equipment, home ...

Traction Battery Solution. We started traction battery manufacturing early in 2008, the annual output can reach 1 million units, the batteries comply with DIN and BS standards are suitable ...

Tianneng Battery Group sells high quality and energy-saving battery which has large energy capacity. Our batteries are equipped with good adiabatic apparatus and good design of security ...

Tianneng Battery invested more than 140 million USD to settle down the lithium-ion battery recycling system in 2016, in the field of lithium battery recycling, has many years of market ...

Tianneng Battery is a leader in key power battery technologies, mastering the world's cutting-edge key technology patents, bringing together global key formulas and cutting-edge materials, and ...

Tianneng Battery Group is a battery manufacturer, committed to lead-acid battery and lithium battery research and development, production, sales, has more than 30 years of technology ...

Tianneng Battery is a leader in key power battery technologies, mastering the world's cutting ...

Starting from the production and manufacturing of power batteries, Tianneng is committed to becoming a global leading green energy system solution provider. Its core businesses include ...

We provide green lithium-ion power battery and backup energy storage solutions for various application scenarios, which are widely used in transportation, commuting, tourism, ...
