

How do you dispose of a portable battery?

Portable batteries and batteries which cannot be removed from waste electrical and electronic equipment (WEEE) should be disposed of: via their distributor where they offer a take back scheme. When storing and disposing of waste batteries, they should be protected from damage and insulated to prevent short-circuits.

What are the waste batteries regulations?

These Regulations set out requirements for waste battery collection, treatment, recycling and disposal for all battery types including arrangements by which the UK intends to meet waste portable battery separate collection targets of 25% by 2012 and 45% by 2016.

Can batteries be disposed of in general waste?

All end-of-life batteries are classed as hazardous waste in the UK and EU, as such they should never be disposed of in general waste. Portable batteries and batteries which cannot be removed from waste electrical and electronic equipment (WEEE) should be disposed of: via their distributor where they offer a take back scheme.

Can I treat or export a battery?

Please note that you cannot treat or export automotive or industrial batteries without approval being granted. You must follow extra rules if you manage waste batteries, including collection, treatment, recycling and export. These are in addition to your duty of care and hazardous waste regulation requirements.

What are the carriage requirements for waste batteries?

What are carriage requirements for waste batteries? Waste batteries (usually scrap lead acid batteries from vehicles - UN 2794) may be carried in bulk subject to the conditions set out in ADR 7.3.3 VC1, VC2 and AP8. There is no minimum load for bulk carriages so ADR/CDG apply in full.

How do I export battery waste to the UK?

ABEs must follow the Waste Shipment Regulations. Use the waste export control tool to find the regulatory controls for your battery waste's destination country. Follow the waste export and import guidance to move waste batteries or waste battery materials like lead plates in or out of the UK for treatment and recycling.
