

Is SolarSpace launching a 5GW high-efficiency solar cell plant in Laos?

SolarSpace, a China-based PV cell and module manufacturer, announced the first phase of a 5GW high-efficiency solar cell plant in Laos, giving momentum to its overseas production capacity. SolarSpace marked the start of the first phase of its 5 GW high-efficiency solar cell plant in Laos at a recent launch event in the Saysettha Development Zone.

Where will SolarSpace manufacture high-efficiency solar cells?

The plant will manufacture high-efficiency cells, although the specific type was not disclosed. The factory is SolarSpace's first PV manufacturing plant in Laos and its latest overseas manufacturing facility. It recently opened its first overseas plant, a 1.2 GW solar module factory in Cambodia.

Why is SolarSpace launching a solar project in Laos?

The company said it has an experienced production and management team in Laos, and those people will play a leading role in the development of the nation's clean energy industry. Laos is a new manufacturing location for SolarSpace, which has traditionally been more active in solar projects in the country.

Where is SolarSpace launching a 5 GW high-efficiency solar cell plant?

SolarSpace marked the start of the first phase of its 5 GW high-efficiency solar cell plant in Laos at a recent launch event in the Saysettha Development Zone. The plant represents an expansion of the China-based PV cell and module manufacturer's overseas production capacity.

Where are solar cells made?

The company's production base in Laos plans to build 9GW of battery plates and 3GW of high-efficiency solar cell panel assembly equipment, on a construction site of about 32 hectares, which is the largest solar cell equipment production centre in the world after China.

Does Laos have a solar sector?

The news is also a positive development for the Laos solar sector. Last year, the country began construction on its first large-scale solar farm, a 50MW project in the south-east province of Attapeu, and the government has already made plans to expand its solar sector further.
