

Wall-mounted electric auxiliary solar temperature setting

How do I control my Solaire electric heater?

Features Smart WiFi Control - Connect the electric heater using WiFi and control from anywhere with a smart phone or tablet via the Smart Life or Solaire App. WiFi App - Through the mobile APP you can control the timer and thermostat with a 24 hour /7 day programme and group heaters into zones. 3 heating modes: Comfort, Antifrost and Eco.

Why do you need a wall mounted electric radiator?

Wall mounting your electric radiators can give your home a more organised, cleaner look, freeing up vital floor space and preventing trip hazards. A wall mounted fitting means your radiator is extra secure, safe and even suitable for running 24 hours a day. Mould and mildew can be an expensive problem for property owners.

Can a heater be used as a wall-mounted radiator?

Each heater includes everything you need to use your heater free-standing or have it as a wall-mounted radiator. Easily fix them onto walls using the wall-mounting brackets or, if you want your heater to be portable, simply attach the included feet to the bottom of the unit. Choose from four models, including 600W, 1kW, 1.5kW, and 2kW units.
