

What are the dimensions of the assembled battery cabinet

What is the purpose of a battery cabinet?

Battery cabinets are used primarily for aesthetic reasons to house batteries in an office environment. They are typically used with valve regulated lead acid (VRLA), semi-sealed batteries that form an integral part of the UPS. These cabinets are manufactured from mild steel and are then powder coated to a desired color.

What are the features of a network cabinet?

Each cabinet utilises a ventilated top and four 19" adjustable front and rear mounting posts. The cabinets feature lift-off sides and a lockable door for maximum access to the internal equipment, with cable access in the base for convenient routing of network cables. The side panels can be fitted with cabinet locks.

What is a Legrand Battery Cabinet?

Universal battery cabinets for all three-phase Legrand UPS from 10kVA up to 800kVA power range. The Battery cabinet is designed to house standard VRLA Batteries of capacity range from 24Ah to 105Ah (C10).
