

What is the best battery technology in Monaco

Does Monaco have EV charging stations?

Monaco is a pioneer in the use of electric vehicles (EVs) and has an extensive network of charging stations. With more than 300 charging points, drivers can easily locate a station to recharge their electric hypercars. The "MONACO ON" network offers strategic coverage and high-speed charging options.

How many recharges a day can a Monaco on battery charge?

Projects planned for 2022 will further increase availability. A terminal in the street can allow up to 16 daily recharges and Monaco On totalled nearly 120,000 top-ups in 2021. However, the department responsible for the service is appealing to users to leave the charging bay once the battery is sufficiently recharged.

How to charge an electric hypercar in Monaco?

Charging your electric hypercar in Monaco is a straightforward process. First, you'll want to use the "MONACO ON" app or any other EV charging station locator to find your nearest charging point. Then, it's as easy as driving up, plugging in, and letting your car do the rest.

What is Monaco on?

The user-friendly "MONACO ON" app is your key to a seamless EV experience. This app puts the power of the charging network at your fingertips. Locate available stations in real-time, navigate effortlessly with built-in GPS, and potentially even initiate and manage your charging session directly from your phone.

How many charging points are there in Monaco?

A total of 30 terminals are now available - each accommodating two vehicles, with 21 installed in the last year. All Monaco residents are now within 250 metres of a free public charging point. Projects planned for 2022 will further increase availability.

How do I charge my EV in Monaco?

Unleash the full potential of Monaco's EV charging network with the "MONACO ON" app. Download it from the App Store or Google Play and get ready for a smooth electric journey. The app boasts a user-friendly interface, but here's a quick guide to get you started:
