

What kind of batteries does the Buenos Aires Electronics Factory produce

Where will lithium batteries be made in Buenos Aires?

State company Y-TEC, the tech arm of YPF, will open the first lithium battery cell factory in September, in La Plata, the capital of Buenos Aires province. Another plant, five times bigger, will kick off in Santiago del Estero in 2024.

How many people can a lithium battery power Buenos Aires?

The plant will generate 15 megawatts per year, which means it will produce lithium batteries capable of powering 2500 households. The batteries are envisaged for use in rural areas. For example, there is already a Buenos Aires province-backed project to supply the Paulino-Berisso island, home to 70 families who are currently off the power grid.

When will Argentina's first lithium plant start production?

Argentina's first National Plant for the Technological Development of Lithium Cells and Batteries will start production in September on the premises of the National University of La Plata (UNLP). Y-TEC (a subsidiary of the state-owned oil company YPF) head Roberto Salvarezza announced Thursday.

Is YPF lithium launching a lithium battery project in Argentina?

The battery project is linked to another, more ambitious one, that of YPF Lithium, YPF's business unit that intends to compete in the exploration and production of lithium carbonate in northern Argentina.

Where will lithium batteries be made?

The lithium batteries' cell manufacturing plant in Berisso, La Plata, will open in September, an event top government officials are expected to attend. The plant will generate 15 megawatts per year, which means it will produce lithium batteries capable of powering 2500 households. The batteries are envisaged for use in rural areas.
