

Which battery is best for a car?

Absorbent Glass Mat (AGM) batteries are the most advanced batteries you'll find in a car right now, unless you're driving a plug-in hybrid or a fully electric vehicle. AGM batteries are also suitable for cars with start-stop systems, but they offer the potential for many more starts than an EFB battery and will have a longer service life.

Is Bosch a good car battery?

Bosch is one of the most trusted names in the world of car batteries. You might pay a little extra for a Bosch car battery, but they tend to last longer and provide better all-season performance than cheaper units. The Bosch S4 001 battery is designed for small cars, so it's ideal if you drive a city car or supermini.

What is the best car battery in the UK?

The Bosch S4 continues to dominate in the UK and it's one of the best car batteries on the market that's backed by a reputable brand. Although more expensive than some of the alternatives, it's worth the extra and it even comes with a 4-year guarantee for complete peace of mind. 2. Best Value: Varta Blue Dynamic C22 Car Battery

Which car battery is best for a stop-start system?

Bosch state that it's suitable for all vehicles equipped with start/stop systems and it provides up to 3 times more efficiency when compared to standard car batteries. Although expensive, the Bosch S5 battery is the brand's best car battery yet that's designed to cope with all the modern electronics such as stop-start systems.

Do batteries rank better than other brands?

Ranking brands is different from ranking batteries, of course, and it turns out to be a lot more complicated. You cannot necessarily trust that every battery made by one brand is automatically better than every comparable battery from any other given brand.

Is a bigger CCA Battery Worth It?

Up to a point, yes. You will pay more for something with a bigger CCA figure and it's only worth it if your car can use it. Again, it's essential to check using the online search tools, or your car's handbook, to determine which battery is correct for your vehicle. What is a lead-acid battery?
