

Who is Yuyang new energy?

Yuyang New Energy focuses on lithium-ion batteries, providing one-stop lithium battery products and customized services from battery, BMS and structure design. Make the flow meter more adaptable to the industrial site environment, measurement more convenient, economic and accurate.

How does Yuyang integrate quality into the value chain?

We integrate quality concepts and process control methods into the entire value chain, allowing all employees to share quality responsibility. YuYang is continuously investing in R&D and production in order to provide reliable solutions and deliver reliable products to strengthen customer stickiness and create a win-win business partnership.

What is Yuyang's manufacturing system?

Yuyang's manufacturing system is comprehensively enhanced in accordance with the increase of customer demands, achieving flexible manufacturing management, and continuously improving quality and production efficiency. We are responding to various kinds of supply requirements with high efficiency.

Our company devotes itself to the research of new energy storage materials and high ...
